-  Internal Asphalt Roads

## OUR SERVICES

### RAW Material supply

Al Nadeem International is providing the RAW Material as much as quantity and specification required all around the sultanate of Oman. We are Providing following material,

-  Aggregate
-  Sub base
-  Sub grade
-  Stones
-  Sand
-  And as per requirements

## OUR SERVICES

### Over Head Lines (OHL)

Al Nadeem International is provider of Overhead Line (OHL) services, specializing in the construction, maintenance, and modernization of electrical power distribution infrastructure in Oman with a commitment to excellence, safety, and sustainability, we have established ourselves as a trusted partner in the energy sector.

#### High Voltage (HV) Over Head Lines

We specialize in the design, construction, and maintenance of high-voltage overhead lines, ensuring the efficient and safe transmission of electricity over long distances. Our team has the expertise to handle projects of varying scales and complexities.

#### Low Voltage (LV) Over Head Lines

Al Nadeem International offers comprehensive services for the installation and maintenance of low-voltage overhead lines, which are essential for the distribution of electricity to residential and commercial properties. We ensure a steady supply of power to meet the needs of our clients.

#### Modernization and Upgrades of OHL

We influence cutting-edge technology to modernize and upgrade OHL systems, including both High Voltage (HV) and Low Voltage (LV) lines. This includes integrating smart grid solutions, optimizing energy efficiency, and enhancing the resilience of the electrical grid.

## OUR SERVICES

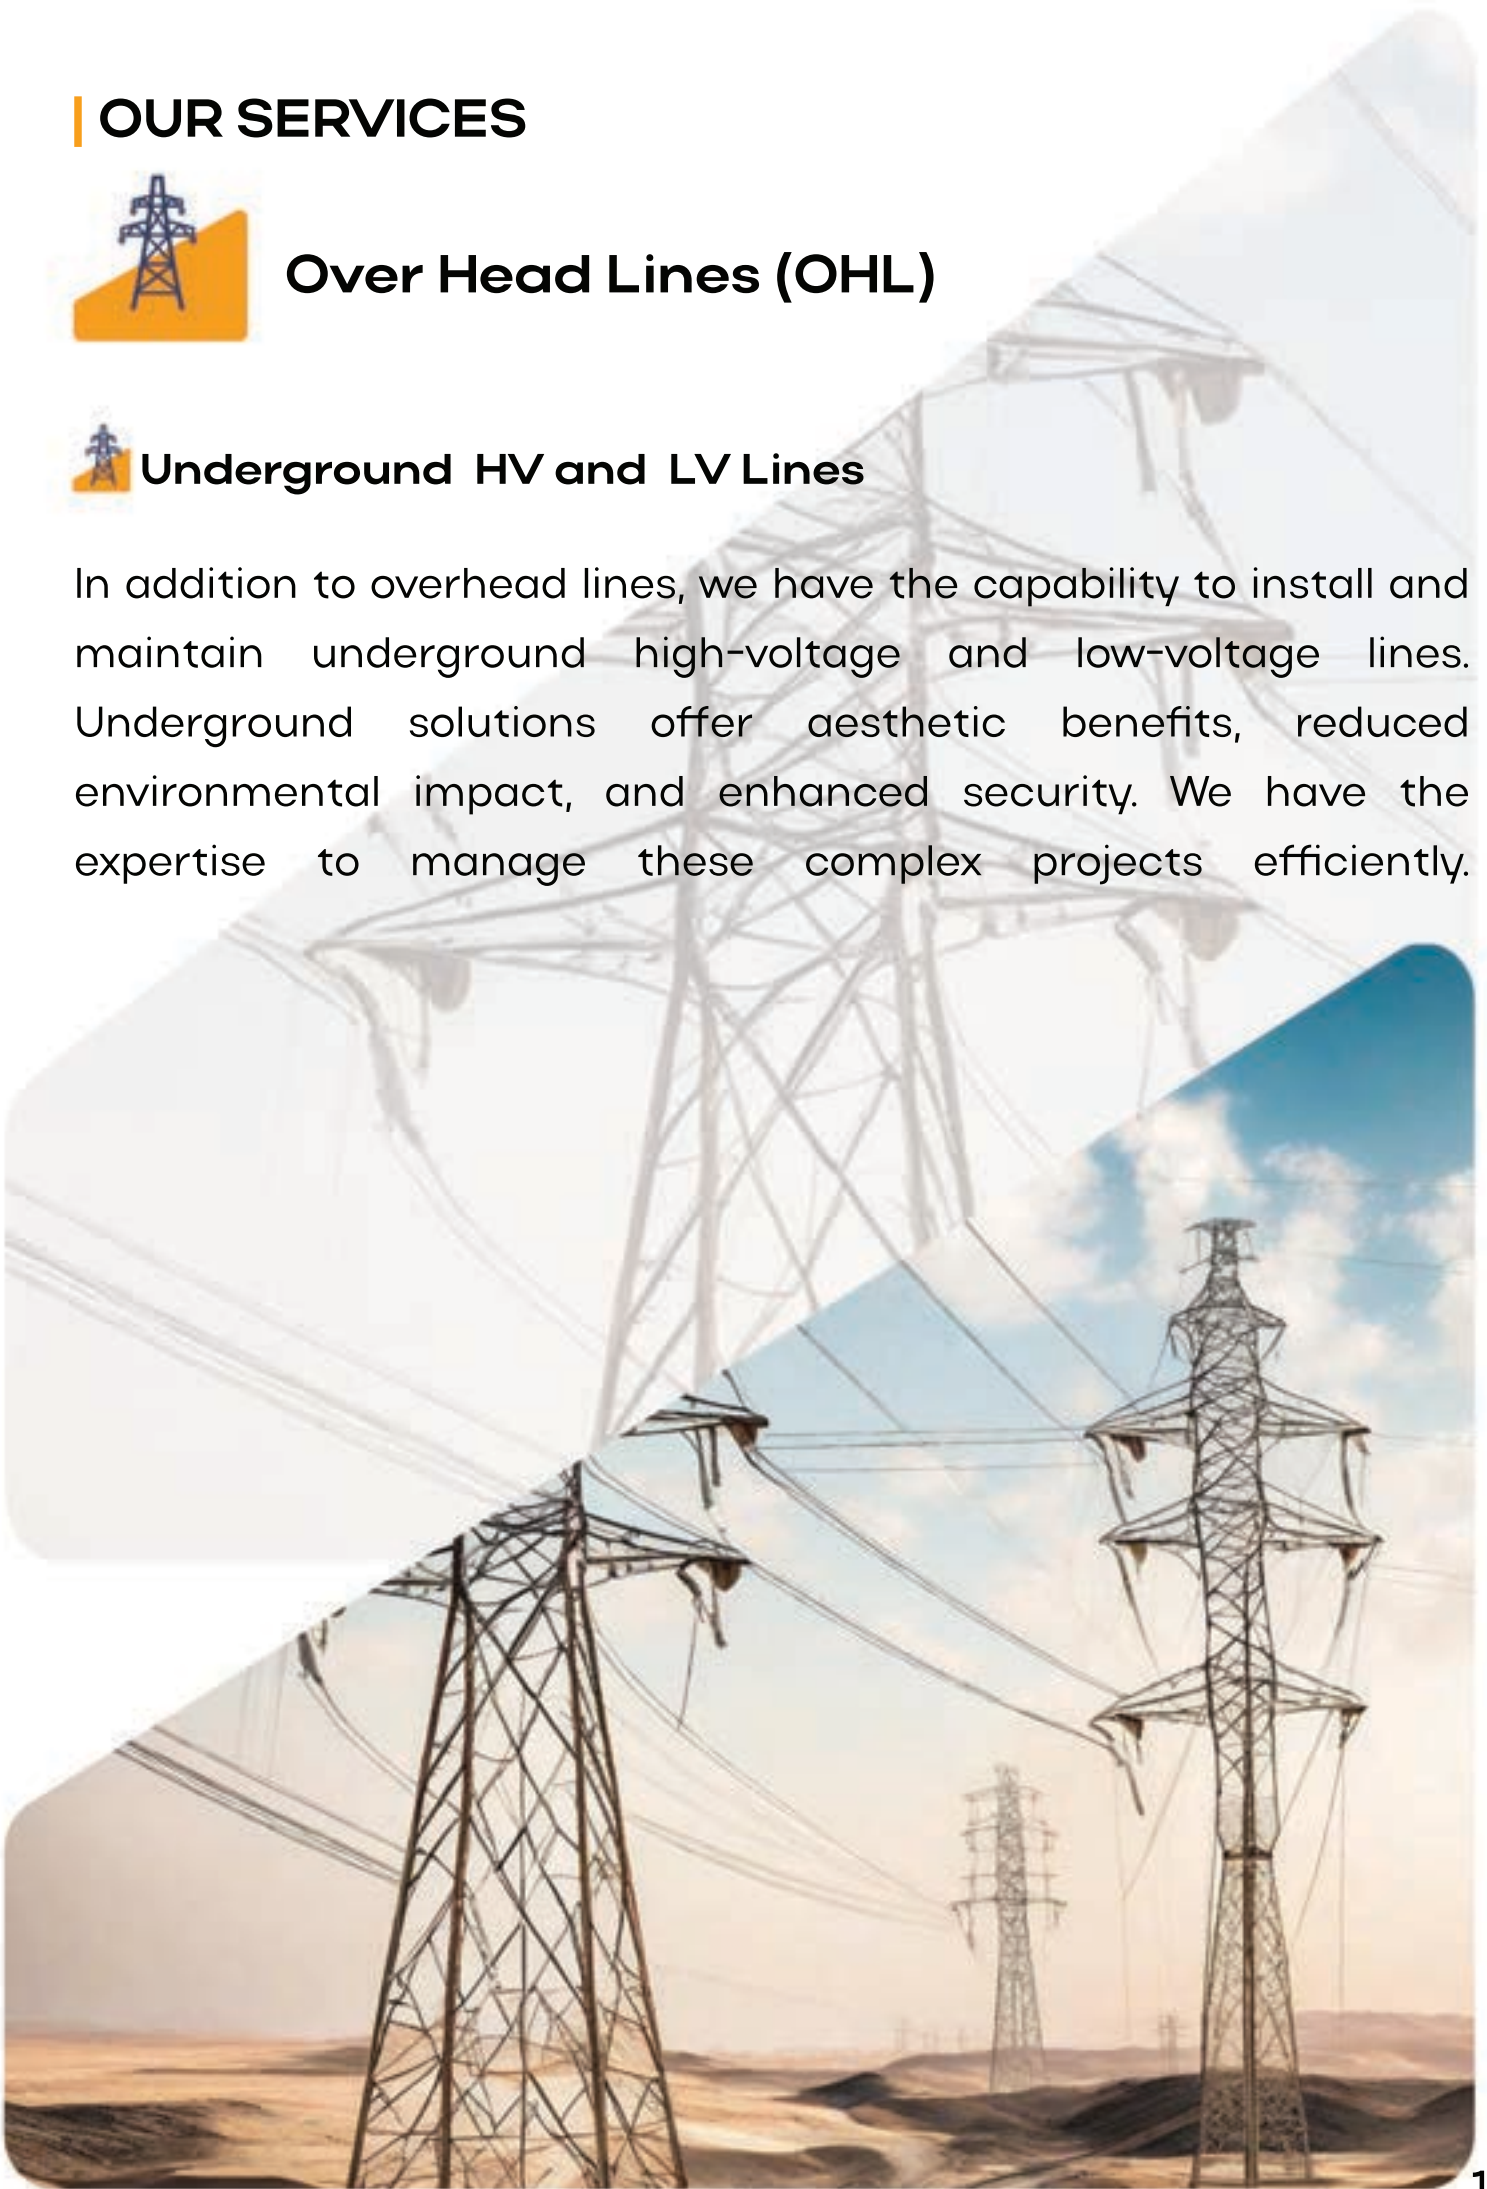

### Over Head Lines (OHL)

### Underground HV and LV Lines

In addition to overhead lines, we have the capability to install and maintain underground high-voltage and low-voltage lines. Underground solutions offer aesthetic benefits, reduced environmental impact, and enhanced security. We have the expertise to manage these complex projects efficiently.

## | OUR SERVICES

### **Telecommunication**

Al Nadeem International (ANT) is a well-known provider of advanced telecommunications services, specializing in cutting-edge fiber optic cable solutions. With a commitment to connectivity, innovation, and superior service, we have established ourselves as a leading player in the telecommunications industry.

### **Fiber Optic Cable Installation**

We excel in the design, installation, and maintenance of fiber optic cable networks. Our experienced team ensures the seamless deployment of high-capacity fiber optic cables, enabling fast and efficient data transmission.

### **Fiber Optic Cable Underground Installation**

We specialize in the underground installation of fiber optic cables, providing secure and efficient connectivity solutions. Our expertise in this field ensures the reliable transmission of data in various environments.

### **Telecommunication Tower Installation**

Al Nadeem International provides turnkey solutions for telecommunication tower installation. We design, build, and maintain towers for enhanced network coverage and capacity, ensuring seamless connectivity in urban and remote areas.

## OUR SERVICES

### Telecommunication

### Business Solutions

Al Nadeem International caters to the specific needs of businesses. We offer custom fiber optic solutions, including dedicated connections, data center services, and network security, to drive productivity and competitiveness
